

# TileGrate™

By Elevated Deck Systems

Fiberglass Reinforced Plastic (FRP) structural grating to support Ceramic Tiles and natural Stone on an elevated pedestal system.

1 ½" Deep X 1 ½" X 1 ½" Mesh  
Corrosion Resistant  
Mold Resistant

Made In The USA  
Lightweight

22 ¾" X 48" for easy handling and pedestal installation

Approximate Weight	28 lbs/grate (3.8 lbs/sqft)
Load Bar Centers	1 ½"
Load Bar width	¼"
# of Load Bars/Ft. of Width	8
Open Area	70 %

## High Strength

TileGrate™ has a high strength-to-weight ratio when compared to traditional materials like metal, concrete and wood. TileGrate™ is less than one-half the weight of steel grating.

## Corrosion Resistant

TileGrate™ is corrosion resistant in the harshest environments and chemical exposures. Unlike metal and wood, TileGrate™ will not rust or corrode and will continue to maintain structural integrity over time.

## Fire Retardant

TileGrate™ has a flame spread of 25 or less as tested in accordance with ASTM E-84. It also meets the self-extinguishing requirements of ASTM D-635.
