High Strength

TurfGrate™ has a high strength-to-weight ratio when compared to traditional materials like metal, concrete and wood. TurfGrate™ is less than one-half the weight of steel grating.

Corrosion Resistant

TurfGrate™ is corrosion resistant in the harshest environments and chemical exposures. Unlike metal and wood, TurfGrate™ will not rust or corrode and will continue to maintain structural integrity over time.

Fire Retardant

TurfGrate™ has a flame spread of 25 or less as tested in accordance with ASTM E-84. It also meets the self-extinguishing requirements of ASTM D-635.
